A detailed illustration of a swallow bird in flight, facing left. The bird has a greenish-blue head and back, with a white underbelly. Its wings are dark with prominent white and yellow-orange markings on the underside. The tail is deeply forked. The bird is set against a solid orange background.

The Symposium brought together partners, experts and stakeholders to reflect on the project's achievements, share experiences from across the partnership and validate the project's advocacy recommendations. It also provided an opportunity to present the findings of the impact measurement process and strengthen dialogue around environmental and social justice within International Volunteer Service.
